

# Technical Specifications

## System Requirements

For the successful implementation of iTaLAM in your school, please read the following technical requirements:

		Minimum Requirements	Recommended Specifications
<b>Infrastructure</b>			
1.	Internet <b>per 20 concurrent users</b>	50 Mbps and more	
2.	Operating System (PC)	Windows 7 and later	
3.	Browser	Chrome (from Desktop)*	
<b>Devices</b>			
4.	Chromebook	2014	2015 and later
5.	iPad Air (not compatible with other iPad models)	iPad Air 2 and later	iOS 10 and later
6.	Processor	Intel i5	Intel i7 and later
7.	RAM	8GB	
8.	Accessories	Each device should have earphones, microphone, and camera (built in or added). Except for iPad, device must have external mouse (not touchpad).	

### Additional recommendations:

- It is highly recommended that each classroom have an access point within the room.
- The access point should support a large number of users (over 100).
- If possible, use only one dedicated gateway for the iTaLAM app as iTaLAM is sensitive to changes in gateway.

\*Access via iPad requires application download to specified device
